MM Docket No. 01-133

To: The Commission

SUPPLEMENT TO  
APPLICATION FOR REVIEW

1. This is to apprise the Commission of information that may be relevant to the referenced matter. By report and order released March 14, 2003 in MM Docket No. 01-188 the Commission allotted channel 243A to the community of Evant, Texas as its first local aural transmission service. DA 03-631.

2. The petition of Charles Crawford for that allotment, which was not opposed, bears similarity to the allotment proceedings at issue here for Mason and Benjamin, Texas, in that it was filed subsequent to the filing of the counterproposal by the Joint Parties in the Quanah, Texas, allotment proceeding without any knowledge or reasonable opportunity to have knowledge of such counterproposal on the part of Mr. Crawford. Moreover,

No. of Copies rec'd 044  
List ABCDE

Evant is located more than 200 miles south of Quanah and the allotment proposed for Evant (channel 243A) had no apparent relationship to the allotment sought for Quanah (channel 233C2).

3. Upon receipt of the Commission's report and order granting the allotment of channel 243A to Evant, Mr. Crawford has discovered that the proposed allotment of channel 243C2 to Lago Vista, Texas, in the counterproposal (Step Thirteen in the labyrinthine trail described in the Application for Review at 7) would interfere with the allotment of channel 243A to Evant. Declaration of Mr. Crawford and engineering analysis attached.

Respectfully submitted,

Counsel for Charles Crawford

March 20, 2003

### Declaration of Charles Crawford

I, Charles Crawford, do declare under penalty of perjury *that* the information in the "Supplement to Application For Review" is true and correct to the best of my knowledge. The allotment of channel 243A to Evant is short spaced by my calculations by -49.2 kilometers. Since the Commissions CDBS data base is currently not accurate, I calculated the distance between 243A/ Evant and the proposed 243C2/ Lago Vista.<sup>1</sup> I then compared the distance calculated of 116.8 kilometers to the minimum distance separation requirements for FM broadcast stations. The separation requirements for an A to C2 co-channel is 166 kilometers. Therefore, 243C2/ Lago Vista is short to 243A/ Evant by -49.2 kilometers.

  
Charles Crawford

March 19, 2003

EvantD

---

<sup>1</sup> The distance between 243A/ Evant and the proposed 243C2/ Lago Vista was calculated by using coordinate to coordinate separation. The coordinates for 243A/ Evant (31 28 56/ 98 09 19) were taken from the Report & Order for Evant released March 14, 2003. The coordinates for 243C2/ Lago Vista (30 27 18/ 97 53 03) were taken from the Quanah counterproposal, 00-148.

CERTIFICATE OF SERVICE

I certify that on this 20th day of March, 2003, I have caused copies of the foregoing SUPPLEMENT TO APPLICATION FOR REVIEW to be placed in the United States mails, postage prepaid, first class, addressed to the following:

Mark N. Lipp, Esq.  
Shook Hardy & Bacon, LLP  
600 14th Street, N.W.  
Suite 800
